Objective

Final-year Information Technology student at UTH with hands-on experience building **Laravel/PHP** backend systems through internships and personal projects. Proficient in RESTful API design, RBAC, real-time WebSocket systems with **Laravel Reverb**, and domain-driven service architecture. Seeking a **PHP/Laravel Internship** opportunity to apply backend development skills, contribute to real-world projects, and grow within a professional engineering team.

Education

University of Transport Ho Chi Minh City (UTH)

Bachelor of Science in Information Technology – GPA: 3.25/4.0

Ho Chi Minh City

2022 – 2026

- **Graduation Thesis:** Legal QA RAG System – Hybrid RAG for Vietnamese Law Q&A (*Practicum: 8.50/10*)

Work Experience

CloudGO | PHP Developer Intern

06/2026 – 07/2026

- Trained on enterprise CRM workflows and a proprietary PHP-based CRM framework
- Configured a PHP 7.1/MySQL development environment and worked with GitLab-based development workflows
- Practiced CRM customization using custom Actions/Views, AJAX processing, Record Models, database operations, and UI components

Cong Ty Co Phan GoPlay Tech | Backend Developer (Remote Part-time)

01/2026 – Present

- Developing and maintaining **ERP/CRM** modules covering warehouse management, employee workflows, customer tracking, and sales pipeline
- Designing and documenting RESTful APIs consumed by the frontend team; participating in sprint planning and code reviews
- Collaborating remotely in a startup environment with fast iteration cycles and cross-functional team coordination

Enterprise Semester Internship | C# Backend Intern (Hoc Ky Doanh Nghiep)

03/2025 – 05/2025

- Applied C# .NET in an enterprise environment; studied microservices architecture patterns and SOLID principles
- Participated in service decomposition, inter-service communication, code reviews, and Agile sprint workflow

Freelance (Remote) | Frontend & Laravel API Developer

09/2024 – 11/2024

- Built **CRUD REST APIs** with **Laravel** for a small business web application; handled authentication and data validation
- Translated Figma mockups into pixel-perfect responsive **HTML/CSS** pages; integrated with Laravel APIs via JavaScript (AJAX/Fetch)

Internship (Remote) | Backend Java Intern

09/2023 – 11/2023

- Developed RESTful APIs using Java/Spring Boot; designed MySQL schemas and wrote unit tests

Projects

News Portal CMS | Laravel 12 · React · Next.js · MySQL · Redis · Socket.IO

2026

- Headless CMS with 3-tier architecture: **Laravel 12 REST API** – React Admin SPA – Next.js 16 Public site, deployed separately on Vercel
- **RBAC** (Admin/Editor/Author) via **Spatie Permission + Laravel Sanctum**; each resource protected by dedicated Policy class
- Drag-drop JSON-based **Page Builder**: Admin designs static page layouts, rendered dynamically from API config on public site
- Real-time view counter: **Redis INCR** instead of DB writes; Laravel Scheduler syncs to MySQL every 5–10 min (no

- write storm)
- Article versioning (snapshotting), auto spam detection, dynamic Sitemap, and **Cloudinary WebP** image optimization
-  [Live Demo](#)  [Docs](#)

Central Kitchen & Franchise Management (CKFMS) | [Laravel](#) · [React](#) · [Expo](#) · [PostgreSQL](#) · [Redis](#) — Team of 4 2026

- **5-role RBAC** (Admin/Manager/Coordinator/Kitchen Staff/Store Staff) with scoped API route namespaces per role
- QR batch-tracking: kitchen generates QR → delivery scans → store staff scans via Expo Camera to auto-update inventory in one transaction
- Real-time push notifications via **Laravel Queue (Redis) + Expo Push API**; order state changes trigger instant targeted alerts
- Domain-driven **Service Layer** architecture (DeliveryService, InventoryService, NotificationService, ReportService)
-  github.com/nguyentrungconghuong/CNPM_CS3  [Docs](#)

Real-Time Collaborative Whiteboard | [Laravel 11](#) · [Vue 3](#) · [Laravel Reverb](#) · [Yjs](#) · [PostgreSQL](#) 2024

- Dual real-time sync: **Yjs CRDT** (y-websocket) for conflict-free canvas state + **Laravel Reverb** for user presence & typing indicators
- Freehand drawing via HTML5 Canvas with undo/redo, DPI-aware scaling, and path replay from persisted JSON in PostgreSQL
- Draggable & resizable elements (Sticky Notes, Text Editors, Captions) synced across all clients instantly via Yjs shared types
- **Google OAuth 2.0 with PKCE** via Laravel Passport + Socialite; 4-service deployment on Render (web, Reverb, queue, y-websocket)
-  github.com/nguyentrungconghuong/miro-clone-ne

Veritas — The Daily Deduction | [Laravel](#) · [Next.js](#) · [PostgreSQL](#) · [React Query](#) 2026

- Gamification detective platform: **JudgmentService** validates clue–statement contradiction chains with 100% accuracy (zero false positives)
- Daily Dossier via **Laravel Cache**: special daily case grants x2 Fame reward; triggers +200 Prestige to Criminal author on failure
- **FameService** with difficulty multiplier (x1.0–x5.0), first-solve bonus (x1.5), and gadget penalty system to prevent farming
-  [Live Demo](#)  [GitHub](#)

Technical Skills

PHP / Laravel	PHP 8.x, Laravel 11/12, Eloquent ORM, Laravel Sanctum, Spatie Permission, Service Pattern, RESTful API
Real-time	Laravel Reverb, WebSocket, Socket.IO, Laravel Queue, Redis, Laravel Scheduler
Other Backend	Java/Spring Boot, C#/.NET, Node.js/Express
Frontend	Vue 3, React, Next.js, TypeScript, Tailwind CSS
Database	MySQL, PostgreSQL, Redis, Firebase
DevOps & Tools	Docker, Vercel, Render, Git, Postman, Jira
Languages	Vietnamese (Native) English – B2 CEFR (SunUni Academy)

Certifications

Google Cloud Computing Foundations Certificate <i>Google Cloud</i>	01/2026
Google Cloud Skill Badges ×4 <i>Google Cloud — Prepare Data for ML APIs · Secure Network · Load Balancing · App Dev Environment</i>	01/2026
DevOps for Freshers <i>DevOpsEdu.vn</i>	03/2026
English Communication Course – B2 CEFR <i>SunUni Academy</i>	07/2025
Certificate of Basic IT Application <i>University of Transport Ho Chi Minh City (UTH)</i>	05/2024
